

Michael C. McAlpine
Benjamin Mayhugh Associate Professor
University of Minnesota
Department of Mechanical Engineering

Michael C. McAlpine is the Benjamin Mayhugh Associate Professor of Mechanical Engineering at the University of Minnesota (2015-Present). Previously, he was an Assistant Professor of Mechanical and Aerospace Engineering at Princeton University (2008-2015). He received a B.S. in Chemistry with honors from Brown University (2000), and an M.A. (2002) and Ph.D. (2006) in Chemistry from Harvard University. His current research is focused on 3D printing functional materials & devices. He has received a number of awards, including the George W. Taylor Award for Distinguished Research, the Presidential Early Career Award for Scientists and Engineers (PECASE), National Academy of Science (NAS) Kavli Frontiers Fellow, Extreme Mechanics Letters (EML) Young Investigator Award, SPIE Nanoengineering Pioneer Award, NIH Director's New Innovator Award, Graduate Mentoring Award in Engineering, DARPA Young Faculty Award, National Academy of Engineering (NAE) - Frontiers of Engineering, Technology Review TR35 Young Innovator Under 35, DuPont Young Investigator Award, American Asthma Foundation Early Excellence Award, the Air Force Office of Scientific Research (AFOSR) Young Investigator Award, and the Intelligence Community (IC) Young Investigator Award.
